## Lloyd's Column

### Met With His Approval

A minister received a check—the first in his life—for a Christmas present. When he took it to the bank for payment the paying teller looked at it and said:

"This check is all right, but you must endorse it."

"Indorse it?" said the puzzled minister.

"Why, yes, of course," replied the teller; "it must be indorsed on the back."

"Ah, I see," answered the minister. Then, turning the check over, he wrote across the back of it: "I heartily indorse this check."

### Sure Enough!

"Gabe," said the lawyer to the amazed negro witness, who had been listening to a heated discussion as to the admissibility of certain testimony, "you have followed carefully this intricate discussion touching on the various aspects of medical jurisprudence involved in the issues we have before us for adjudication; and in view of that I now desire to know the theory advanced by my learned brother."

The witness cast a triumphant side glance at his own attorney. Then he puffed out his lips and his chest. "Most doubtless," he answered.

### Miles Per Gallon

A correspondent writes: "My heavy old car makes about eight miles under normal conditions and ten to eleven when the roads are unusually good. Like all other motorists, I want to get more miles per gallon, and so I turn to the trade journals, hoping to assemble the type of car that will give me the maximum efficiency."

"I soon decided that my ideal car will weigh only half as much as the car I now drive; therefore, I shall get sixteen miles per gallon. But if I am wise enough to get a wind-cooled machine I can expect a quarter more mileage, bringing it up to twenty. Superimpose the valve in the tail construction and a quarter more comes; thus I get it up to twenty-five."

"I find further that by putting on special nonleaking rings on the cylinders I can increase further the mileage twenty per cent just as well as not; this brings it up to thirty. A little automatic air mixer, making the car burn 'air instead of gasoline,' will increase the efficiency thirty-three and a third per cent, so I am up to forty. A very reliable tire manufacturer guarantees twenty-five per cent more by using his Goldberg string tires; that brings my mileage up to fifty. Dr. Dopum's gasoline tonic applied at the rate of ten drops or pills per 100 gallons will bring the mileage up to sixty. The list is not exhausted, but why carry it any further? Sixty miles per gallon is good enough for anyone, for, like the rest of us, the Standard Oil company is entitled to live and do business. But my next car shall have at least all the features that I have mentioned, and if gas goes above 19 cents per gallon I shall get even by adding some more."—Twentieth Century Farmer.

### The Printer and Rising Prices

(By Albert M. Freeman)  
A butcher came the other day.  
One thousand billheads bought.  
I charged him what I always had,  
Nor gave the price a thought.

A tailor entered afterwards,  
With copy for a dodger.  
The price was what he paid last year.  
(I dared not make it larger.)

A man who deals in coal and wood  
Was next to try my door;  
"Five hundred cards?" "One-twenty-five."  
(I never had asked more.)

Today I went to pay some bills.  
Good grief! I stopped to think.  
For all the prices looked so large  
On paper, type and ink.

Tonight my wife came round for cash  
To pay for meat and coal.  
And also for the children's clothes—  
The figures gnawed my soul.

"Thanks, thanks to ye, my worthy friends,  
For the lesson ye have taught,"  
I cried aloud, and roundly swore  
I'd never more get caught.

Tomorrow, when the butcher comes,  
He'll pay a price that's higher.  
Or else the shade of mighty Ben  
May haunt me for a liar.

FEEL LIKE GIVING UP?  
Many Alliance People on the Verge  
of Collapse

A bad back makes you miserable  
all the time—  
Lame every morning; sore all day.  
It hurts to stoop—it hurts to  
straighten.  
What with headache, dizzy spells,  
urinary weakness,

No wonder people are discouraged  
who do not know the kidneys may  
be the cause of it all.  
Give the weakened kidneys need-  
ful help.

Use a tested and proven kidney  
remedy.  
None endorsed like Doan's Kidney  
Pills.

G. H. Williams, stationary fire-  
man, 421 Yellowstone ave., Alliance,  
says: "My back was lame and ached  
terribly. Heavy work would about  
kill me up. Doan's Kidney Pills re-  
solved me, so I endorse them as a  
first-class medicine."

Price 50c. at all dealers. Don't  
simply ask for a kidney remedy—  
get Doan's Kidney Pills—the same  
that Mr. Williams had. Foster-Mil-  
burn Co., Props., Buffalo, N. Y.

## HILL CLIMBING SEVERE TEST

Fred Junk, Winning Driver in Giants  
Despair and Pike's Peak Events  
Says Mountains Show Car

That the hill-climb continues to be  
the most severe test for motor cars  
is vouched for by Fred Junk, the  
youthful Chalmers pilot, who captured  
the free-for-all event in the Gi-  
ants' Despair Hill Climb at Wilkes-  
Barre last Saturday. Junk drove a  
Chalmers Six to first place in his  
class event on Pike's Peak in August  
and is well qualified to define the dif-  
ficulties of mountain-climbing.

"Without considering the merits  
of speedway and hill-climb events,  
from the strenuous standpoint, the  
fact remains that the latter test is  
the one to which the majority of  
owners put their cars," said Junk,  
yesterday. "No owner buys a car to  
race it at top speed for 100 or 150  
miles, but he does require the motor  
of his machine to possess sufficient  
power to climb the steepest grades  
on his touring trips across country."

"For this reason, the past year  
witnessed a revival of interest in hill-  
climb events in all sections of the  
country. At Pike's Peak and Giants  
Despair, big crowds turned out to ob-  
serve the performance of the best  
American cars on the highest auto-  
mobile roads in the country."

"In hill-climbing, the strain on the  
rear axle, including the driving and  
propeller shafts, is almost double  
that given the car in fast work over  
level roads. Second speed travelling

is necessary in surmounting the steep  
twenty per cent grades on mountains  
such as Pike's Peak and Giants' De-  
spair. This imposes not only extra  
strains on the axle, but on the trans-  
mission and also requires a cooling  
system that will take care of the  
extraordinary demands made upon  
it in high altitudes.

"In speedway events, the fastest  
speed is obtained in the straight-  
ways and the drivers rest their mo-  
tors on the turns. In hill-climbing,  
the motor must be kept hard at  
work, because the force of gravity is  
constantly in operation and tugging  
at the rear wheels. I have found  
nothing in track events which com-  
pares with the twisting, weaving mo-  
tions of a car making a fast turn on  
a hill. In my opinion, a car which  
can successfully meet a test of this  
kind is so constructed as to render  
perfect satisfaction, even in the  
hands of an inexperienced driver."

The crowd of 60,000 persons who  
witnessed the contest swarmed out  
on the tracks at many points, leaving  
only a narrow lane for the cars to  
pass through. Junk drove a road-  
ster and a stripped chassis in the  
three events Saturday, winning the  
\$1,000 Hollenback trophy, the Phil-  
adelphia Press trophy and the cup  
for 230 inch displacement event. His  
time of one minute and 41 seconds  
was the fastest of the day over the  
course.

Catarrhal Deafness Cannot be Cured  
by local applications, as they cannot  
reach the diseased portion of the  
ear. There is only one way to cure  
catarrhal deafness, and that is by a  
constitutional remedy. Catarrhal  
deafness is caused by an inflamed  
condition of the mucous lining of the  
Eustachian Tube. When this tube is  
inflamed you have a rumbling sound  
or imperfect hearing, and when it is  
entirely closed, deafness is the re-  
sult. Unless the inflammation can  
be reduced and this tube restored to  
its normal condition, hearing will be  
destroyed forever. Many cases of  
deafness are caused by catarrh,  
which is an inflamed condition of the  
mucous surfaces. Hall's Catarrh  
Cure acts thru the blood on the mu-  
cous surfaces of the system.

We will give One Hundred Dollars  
for any case of Catarrhal Deafness  
that cannot be cured by Hall's Cat-  
arrh Cure. Circulars free. All  
Druggists, 75c.

## COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to  
keep her Locks Dark,  
Glossy, Beautiful.

The old-time mixture of Sage Tea and  
Sulphur for darkening gray, streaked  
and faded hair is grandmother's recipe,  
and folks are again using it to keep their  
hair a good, even color, which is quite  
sensible, as we are living in an age when  
a youthful appearance is of the greatest  
advantage.

Nowadays, though, we don't have the  
troublesome task of gathering the sage  
and the mussy mixing at home. All  
drug stores sell the ready-to-use product,  
improved by the addition of other ingredi-  
ents, called "Wyeth's Sage and Sulphur  
Compound" for about 50 cents a bottle.  
It is very popular because nobody can  
discover it has been applied. Simply  
moisten your comb or a soft brush with  
it and draw this through your hair, tak-  
ing one small strand at a time; by morn-  
ing the gray hair disappears, but what  
delights the ladies with Wyeth's Sage  
and Sulphur Compound, is that, besides  
beautifully darkening the hair after a  
few applications, it also produces that  
soft lustre and appearance of abundance  
which is so attractive. This ready-to-use  
preparation is a delightful toilet requisite  
for those who desire a more youthful ap-  
pearance. It is not intended for the cure,  
mitigation or prevention of disease.

The Ladies' Home Journal, the  
Saturday Evening Post and The  
Country Gentleman wish to secure  
the spare time of a man or woman to  
act as local representative in Alliance  
and vicinity, looking after the re-  
newals of their many subscriptions  
in this section, and introducing these  
publications to new readers. Pay-  
ment will be made in salary and com-  
mission. Previous experience is de-  
sirable but not essential. For details  
address, with references, Box 654,  
The Curtis Publishing Company, In-  
dependence Square, Philadelphia,  
47-21

Calling cards for the ladies are  
printed promptly and neatly at The  
Herald office. The prices are rea-  
sonable. Phone 340 for samples and  
prices, or call at the office.

# JUMP FROM BED IN MORNING AND DRINK HOT WATER

Open sluices of system each morning and  
wash away the poisonous, stagnant  
matter, says authority.

A glass of hot water with a teaspoonful of  
limestone phosphate in it, drank each  
morning before breakfast, keeps  
us looking and feeling fit.

Life is not merely to live, but  
to live well, eat well, digest well,  
work well, sleep well, look well.  
What a glorious condition to  
attain, and yet how very easy it is  
if one will only adopt the morning  
inside bath.

Folks who are accustomed to  
feel dull and heavy when they  
arise, splitting headache, stuffy  
from a cold, foul tongue, nasty  
breath, acid stomach, can, instead,  
feel as fresh as a daisy by open-  
ing the sluices of the system each  
morning and flushing out the  
whole of the internal poisonous  
stagnant matter.

Everyone, whether ailing, sick  
or well, should, each morning,  
before breakfast, drink a glass  
of real hot water with a teaspoon-  
ful of limestone phosphate in it  
to wash from the stomach, liver,  
kidneys and bowels the previous  
day's indigestible waste, sour  
bile and poisonous toxins; thus  
cleansing, sweetening and puri-

fying the entire alimentary canal  
before putting more food into  
the stomach. The action of hot  
water and limestone phosphate  
on an empty stomach is wonder-  
fully invigorating. It cleans out  
all the sour fermentations, gases,  
waste and acidity and gives one  
a splendid appetite for breakfast.  
While you are enjoying your  
breakfast the water and phos-  
phate is quietly extracting a large  
volume of water from the blood  
and getting ready for a thorough  
flushing of all the inside organs.

The millions of people who  
are bothered with constipation,  
bilious spells, stomach trouble,  
rheumatism; others who have  
sallow skins, blood disorders and  
sickly complexions are urged to  
get a quarter pound of limestone  
phosphate from the drug store,  
which will cost but little, but is  
sufficient to make anyone a pro-  
nounced crank on the subject of  
internal sanitation.
